A
Predicted frequency response
$k_{ref} \times 0.1$
$k_{ref} \times 1$
$k_{ref} \times 10$
10-20 Hz
(operating)
peak height (nA)
SWV frequency (Hz)
B
Insensitive to k_{ref}
peak height (relative to base)
k_{ref} at the PEG6 tip (s^{-1})
C
Testable prediction
model
proportional to f
peak / peak at 10 Hz
frequency (Hz)
